# ABOUT THE EVENT

Due to the pandemic crisis of covid-19, the 2nd edition of Renewable Energy & GreenTech Sabah 2021 (REGTech2021) goes virtual!

This virtual setting provides all renewable energy and green technology communities a chance to meet virtually and identify potential opportunities for the industries.

REGTech is Sabah's first ever renewable energy and green technology that will become the leading platform for professionals to share ideas to promote and support the greater use of green energy and technology. The 1st REGTech was held in November 2017 and in a physical setting.

In its second installation, REGTech2021 will bring together industry experts from across the country and the region to exchange knowledge and share their expertise and showcase the renewable energy and green technology developments that will ultimately shape and strengthen Sabah's renewable energy and green industry sector. Covering the topics of Challenges and opportunities of the renewable energy and green technology industry, REGTech2021 Online Conference will comprise of two half day conference sessions and business matching.

REGTech2021 is set to deliver high-quality content and comprehensive in-depth practical information. The conference and business matching brings together a range of experts involved in every aspect including government policy makers and those involved in planning and legal aspects in the renewable energy and green technology sector.

## CONFERENCE

The 2 half day conference sessions will provide the highest level of quality in technical and strategic content, designed to provide the latest in technologies, trends and market as well as challenges and opportunities.

REGTech2021 will set to deliver high-quality content and comprehensive in-depth practical information. The online conference brings together a range of experts involved in every aspect of the green technology industry including government policy makers, NGOs, associations, and private sectors.

## BUSINESS MATCHING

Participants from various industry sectors are invited to participate in the REGTech2021 Online Conference as they will have the opportunity to network with each other (participants, speakers, sponsors, moderators) in a business matching session, in their own chosen day and time, within one month before the conference and another additional two weeks after. The virtual business matching session will serve as a platform for industry players to promote their latest renewable energy and green technology products and services.

This business matching session is specially catered to everyone in the conference room, bringing together every aspect of the green technology industry under one roof – leading suppliers, sub-suppliers, service providers and end-users across the related industries, the business matching provides a unique opportunity to reach buyers, specifiers and decision makers across multiple segments of the various industries in Sabah.
